# COMPETITORS' STARTING INSTRUCTIONS

- (1) Consistent with the amended provisions of the Swimming Rules, the Starter will not necessarily brief competitors on his requirements before the Start.
- (2) The Referee will give a long, drawn out crescendo blast on the whistle to signal competitors to take up a position on their blocks, or, in the case of a Backstroke event, to come to their starting positions in the water.
- (3) The False Start Rules will be applied in this way:
  - (a) A swimmer who dives into the pool before **ASSUMING AND HOLDING his starting position prior to the signal to start is liable to disqualification on the recommendation of the Starter and with the concurrence of the Referee.**
  - (b) A swimmer who is told to 'stand up' and who then wilfully dives into the pool after the order is given would contravene the "wilfully disobeying an order" rule and consequently **is liable to disqualification on the recommendation of the Starter and the concurrence of the Referee.**
  - (c) A swimmer who overbalances and falls into the pool after being told to 'stand up' is not, however, in contravention of the "wilfully disobeying an order" ruling.
- (4) When requested by the Check Starter, the competitors will move in a group onto the Pool-deck each to a position immediately behind his/her Lane Starting Block.
- (5) After the competitors have placed themselves behind their respective blocks, the announcer will make the appropriate introductions.
- (6) The Referee will give a long, drawn out crescendo blast on the whistle to signal competitors to take up a position on their blocks, or, in the case of a Backstroke event, to come to their starting positions in the water.
- (7) The Starter will give the precautionary command "Take your marks". Competitors will immediately take up their starting positions at the front of the starting block, or, in the case of a Backstroke event, their starting positions in the water, and REMAIN STATIONARY.
- (8) When all competitors are stationary the Starter will give the starting signal.
- (9) Competitors must finish in the lane in which they start. They will remain in the water in their lanes at the finish of the event until a signal is received from the Referee to leave the water.

**In this meet, starts will be in accordance with the F.I.N.A. International Rules.**

- **THE ONE START RULE SHALL APPLY THROUGHOUT THE WHOLE OF THE MEET.**
- **Feet first entry to the pool will apply to all backstroke events.**
- **Any relay team shall be disqualified from a race if a team member, other than the swimmer designated to swim that length, enters the water when the race is being conducted, before all swimmers of all teams have finished the race.**

**BARRACKING: Shortly before the commencement of each event a whistle will be blown to serve as a request to all supporters to refrain from making any noise until the competitors have entered the water.**

# Fire & Evacuation Procedures

## BRI/BANE AQUATIC CENTRE

### FIRE WARNING SYSTEM

Installed in the building is an Automatic Fire Alarm System with Heat Detectors, Smoke Detectors & Manual Call Points located throughout the building. Activation of any of the above devices **WILL** automatically call the Fire Brigade.

A fire alarm will cause the emergency warning system to produce a sound called the Alert tone **Barp Barp**

Should an evacuation of the building be ordered the sound you will hear is **Whoop Whoop**

**To call Fire Brigade  
Dial 000 or mobile 112**

### SAFETY MEASURES

- ⇒ Sound the fire alarm on discovery of a fire by breaking the glass on the nearest manual call point
- ⇒ Always react to a fire alarm and assist others.
- ⇒ Familiarise yourself with the locations of fire extinguishers and the Manual Call Points in your work area
- ⇒ Exit passageways and access to extinguishers and Manual Call Points must remain clear at all times
- ⇒ Tasks which may result in a fire should be avoided. **TURN OFF** electrical appliances when not in use.
- ⇒ Your role during a fire alarm is firstly preserve life safety then attempt to extinguish the fire (only if safe to do so)

**FIGHTING OF FIRES SHOULD, FOR SAFETY REASONS BE UNDERTAKEN IF TWO PERSONS ARE PRESENT, THE CORRECT FIRE EXTINGUISHER IS AVAILABLE AND IT IS SAFE TO PERFORM THIS TASK.**

Mobility impaired persons should exit immediately on a fire alarm, assisted by a nominated person at the time.

**UNDER NO CIRCUMSTANCES SHOULD FIRE HOSE REELS BE USED ON OR NEAR LIVE ELECTRICAL APPLIANCES OR POWER OUTLETS.**

### FIRE ALARM PROCEDURES

At all times, when a fire alarm sounds or hearing the Alert tone **Barp Barp**, you are to prepare to evacuate.

- ☑ Warn Public, make safe equipment, store valuables collect personal belongings from the immediate area
- ☑ Move to an exit point from your area and await instructions from the Fire Warden.

**EVACUATE THE BUILDING IF YOUR SAFETY IS AT RISK, SMOKE IS PRESENT (OBVIOUS OR SMELT) OR IF INSTRUCTED BY THE FIRE WARDEN**

When the order to evacuate is given or when hearing the Evacuation tone **Whoop Whoop** you are to:

- ☑ Exit the building by the nominated exit points and move directly to the Assembly Area. Fire Wardens will take control and provide any further directions.

#### APPLY CAUTION IN CROSSING ROADS

**IF A FIRE ALARM SOUNDS AFTER ADMINISTRATION WORKING HOURS, OCCUPANTS ARE URGED TO EVACUATE IMMEDIATELY**

**DO NOT RE-ENTER THE BUILDING UNTIL THE FIRE BRIGADE ADVISE IT IS SAFE TO DO SO.**

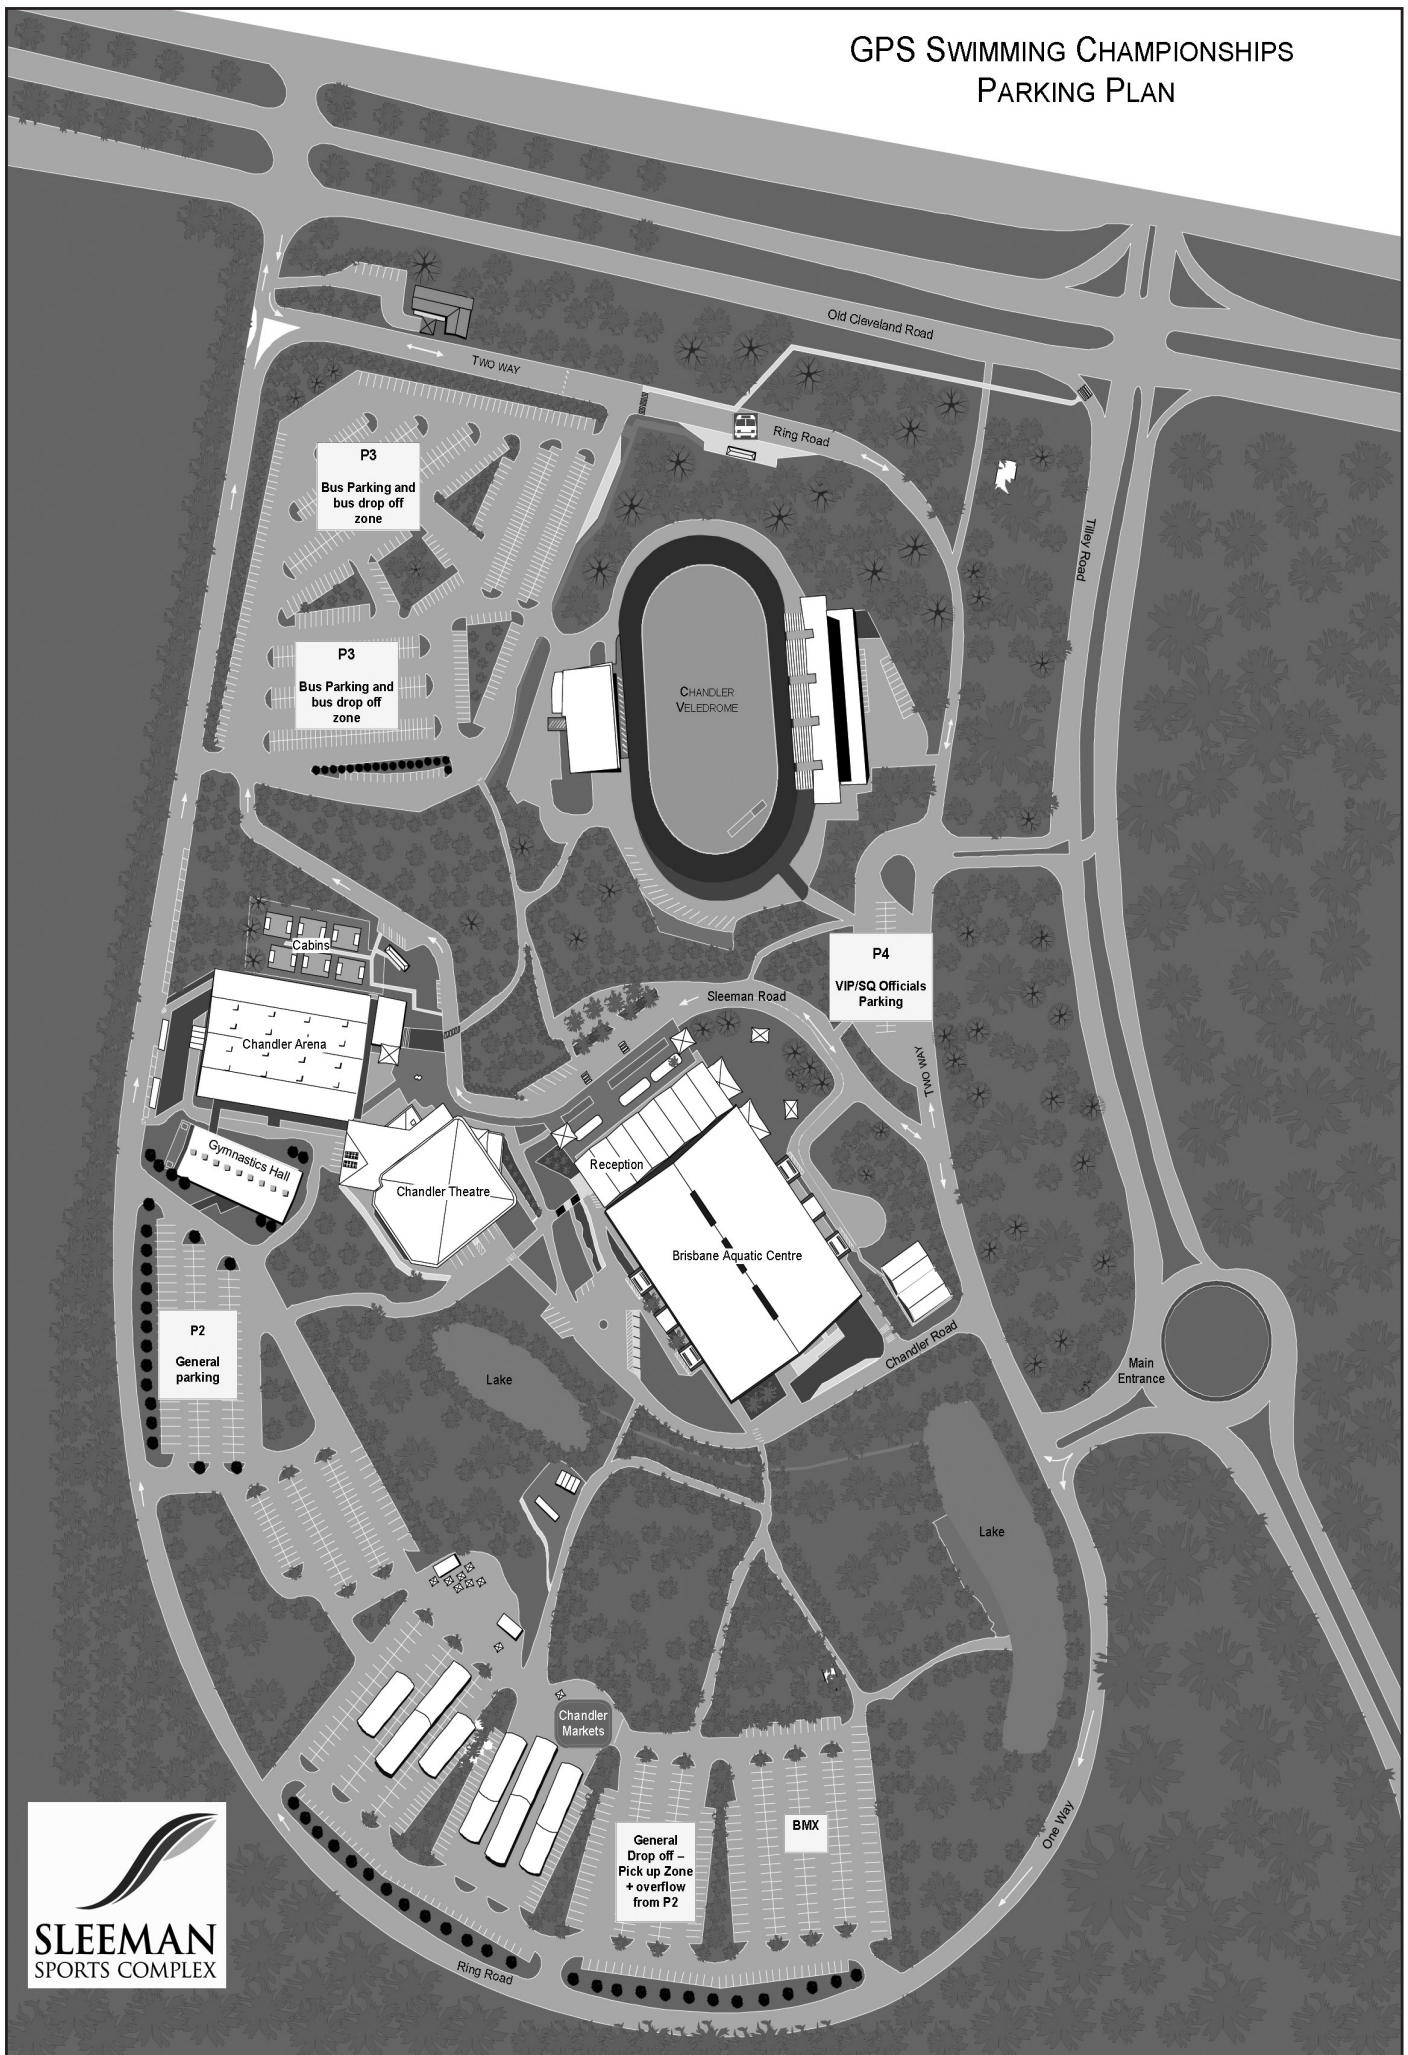

**EVACUATION PLAN**
